

Tempered Glass Screen Protector for iPhone 16

Product Description

This tempered glass screen protector for iPhone 16 offers high-quality protection with excellent clarity. It features an integrated applicator for easy installation.

Specifications

- Thickness: 0.33mm glass + 0.33mm AB glue
- Hardness: 9H
- Light Transmittance: $\geq 90\%$
- Features: Anti-fingerprint, Anti-scratch
- Coating: Plasma fingerprint oil
- Water Resistance: Initial water drop angle of 110 degrees
- Application: Glass comes with integrated applicator

Package Contents

- 1 x Tempered Glass Screen Protector with Integrated Applicator
- 1 x Cleaning Kit (alcohol wipe, microfiber cloth, dust removal sticker)

Installation Instructions

1. Clean your hands thoroughly.
2. Power off your iPhone 16.
3. Clean the screen using the provided alcohol wipe, then dry with the microfiber cloth.
4. Use the dust removal sticker to remove any remaining particles.
5. Remove the protective film from the back of the screen protector.
6. Using the integrated applicator, align the screen protector with your phone's screen.
7. Press down on the center of the applicator and slide your finger outwards to apply the screen protector.
8. Once applied, carefully peel off the applicator from the top layer of the screen protector.
9. If any bubbles remain, gently push them towards the edges using the microfiber cloth.

Key Features

- High Clarity: With $\geq 90\%$ light transmittance, the screen protector maintains the vibrant display of your iPhone 16.
- Durability: 9H hardness rating provides excellent protection against scratches and impacts.
- Oleophobic Coating: The plasma fingerprint oil coating resists fingerprints and makes cleaning easier.
- Easy Application: The integrated applicator ensures a precise and bubble-free installation.

Care and Maintenance

- Clean the screen protector regularly with a soft, lint-free cloth.
- Avoid using harsh chemicals or abrasive materials for cleaning.

Safety Precautions

- Keep out of reach of children.
- Do not bend or apply excessive pressure to the screen protector.
- In case of breakage, handle carefully to avoid injury from glass shards.
